## Bag Mixer® 400W - The World's Best Selling Bag Blender

Avoiding all risks of cross-contamination, Bag-Mixer® 400W is an easy-to-use and powerful lab blender.

Bag Mixer 400W for blending and filtering solid samples for microbiological analysis. For use with 400ml blender bags (plain and filtered).

### Features:

- Door Window
- Reliable
- Silent operation
- 3 years warranty
- Fixed Speed (8 strokes / sec)
- Supplied with security drip tray
- Variable blending time (30 - 210 sec or open-running)

**SAVE  
25%**

Code	Description	List Price €	Offer Price €

01-200-500	Tryptic Soy Agar (TSA), 500g	54.40	<b>48.95</b>

Please contact the sales office for details on the comprehensive range of Scharlau dehydrated culture media.

## Scan® 100 Colony Counter

Scan® 100 is a high-tech manual colony counter remarkable for its user-friendly functions and wonderfully ergonomic. A LED lighting system with Dark-Field technology gives an accurate and contrasted view of the colonies. The integrated USB port allows export of the results to the software of your choice (PC/Mac) to guarantee traceability.

**Delivered with one unit :** Adapter for Ø 90mm Petri dishes, White background plate, Counting black pen, USB connecting cable, Power cord, User's manual

Code	Description	Offer Price €
IN-435-000	Scan® 100 - Colony Counter 220 / 110 V - 50 / 60 Hz	<b>1,290 .00</b>
IN-435-001	Flexible magnifying lens: Magnifying lens (X2) with flexible arm accessory for easier counting	<b>205 .00</b>

## Flexipump - your essential partner for easy & fast dispensing

FlexiPump® is a great tool for serial dispensing of culture media, agar or any liquid diluent, it is compact, has an intuitive interface and great ergonomics. Its speed and precision guarantee an efficient sample preparation.

- Essential Features:**
- Single pump head with 3 rollers
  - Delivered with one dispensing assembly (3.2mm inner diameter) tube
  - Flow rate up to 1,25L/min

Code	Description	Offer Price €
IN-561-000	FlexiPump® - Liquid dispensing pump. Single pump head	<b>2,335.00</b>

## Loops and Spreaders for Microbiology

We now stock the Microspec range of microbiological consumables in Ireland. Microspec Ltd manufactures and distributes a select range of quality microbiological consumable items. The company is run by microbiologists for microbiologists. Their products used in a wide variety of fields including medical, pharmaceutical, environmental, veterinary and food.

Code	Description	Pack Size	List Price €	Special Price €
SLS2008	Sterile 1ul Loops, in Resalable bags of 20	Box of 1000	36.85	<b>25.75</b>
SLS2010	Sterile 10ul Loops, in Resalable bags of 20	Box of 1000	36.85	<b>25.75</b>

## Hanna Instruments - edge pH meter; edge EC meter; edge DO meter

- edge® pH HI-2002-02 is dedicated to testing pH / edge® EC HI-2003-02 is dedicated to testing Conductivity / edge® DO HI-2004-02 is dedicated to testing Dissolved Oxygen
- Using Hanna's latest innovation in technology and design, edge® can be adapted to suit your working method.
- Select from hand held, wall mount or bench top - or even switch between them all. edge® is happy any which way. Simply plug in the electrode, then play.
- Measurement is simpler, quicker and more accurate than ever.
- Results are fast and reliable. Combining high precision technology with the user-friendly dimensions and format of a small digital tablet, edge® is breaking new ground in electrochemistry.
- Cutting-edge design, capacitive touch keypad and an intuitive user interface are just a few of the great attributes that make edge® stand out as the world's first Hybrid meter on the market.

Code	Description	List Price €	Offer Price €

## Pro LED Digital Magnetic Hotplate Stirrer - (Ceramic Hot Plate Diameter – 135mm / 5 inches)

Digital control system is ideal for applications of Analytical and biological Laboratory. Temperature up to 280°C / Power 515W. Electronic speed control, the max speed is 1500rpm. Stainless steel with ceramic coated hotplate allows immediate heat transfer for quick heat-up times, chemical-resistant and scratchproof. External temperature sensor PT1000 is available and control accuracy of  $\pm 0.5^\circ\text{C}$ , real-time control medium temperature. LED display temperature and speed. 50°C HOT warning indicates residual hotplate temperature. ABS casing with fire retardant material, resistance of weak acid and alkali

Code	Description	Offer Price €
BX01-3105	Pro LED Digital Magnetic Hotplate Stirrer	<b>285.00</b>

## Gilson Pipetman Starter Kits

Pipetman Classic - This unique kit contains three pipettes conveniently packaged with useful accessories at an economical price.

- Three classic pipettes: P20, P200, and P1000 pipettes
- Two racks of certified-quality Diamond® Tips: D200 and D1000
- Three adhesive-backed Single Pipette Hangers
- OLORIS™ Identification Clips (mixed colors)
- One Gilson Guide to Pipetting

## Accumax Smart Variable Volume Pipette

Fully autoclavable without disassembly for maximum convenience as well as protection from contamination. Enhanced UV resistance. High performance, light weight and easy in operating. Fatigue free working with convenient finger rest. Made with special materials for better protection against chemical and physical corrosion.

Pipette handle has coating of Thermoplastic Elastomer to prevent body heat transfer to internal parts for high accuracy even during continuous use. Volume display is always visible while pipetting. In house cleaning, repair and calibration possible without any special tools. New tip cone design for smooth fitting with many brands of tips. Colour coding for easy identification. Shelf mounting stand for efficient handling and storage. Supplied with individual quality certificate (QC) and calibration report according to ISO8655
